

Hey, team. We have a number of folk wanting to be a part of our branch

Many our brothers and sisters who are coming from other cultures. If anyone asks you what they can be doing until we fully open back up our meetings and even after, please share this list with them to get them started. Also share with many of our folk as well. I thought a great thing to share with them as well as many of us, is to recommend using this time to see some Black documentaries. I have a lot of them, but off the top of my head I can't recall right off. I want to share this with you all to encourage you if you have not seen them to catch them. We want everyone to truly understand what we face in life, and what we have to overcome that never, ever stops. We want people to understand the full extent of systemic racism. But we also want to show them our greatness, in spite of it all. (*I've seen almost all of the movies listed below and I note the ones I haven't. There are so so many more. This is a hobby of mine if I had one; learning about Black History mostly through movies. I have a HUGE list of ones to get to still. I'm gonna stop for now. I could add so many more that I've already seen but this will keep you busy for a while. If you finish watching and need more options, let me know.* 😊 )

(**To read** about just a few of the many unjust atrocities we've faced, read about **Black Wall Street**.
